

LODAX PREMIUM

From temporary access roads on large scale construction jobs to moving gardening machinery across pristine lawns, the LODAX Premium Mats are a multi-purpose piece of kit.

This robust, high-performing flooring system can support up to a 45-tonne load, which means you can move machinery and people across the ground safely and securely.

LODAX Premium Mats are used by the construction industry, by landscape gardeners, in mining projects events, and for (crane / aerial platform) rental companies. Given the range of applications they support, there are few jobs that these unbreakable mats can't handle - they even come with a 10-year warranty. Simply lay them on the area you need to cover, use the easy-to-attach connectors to join them and you're ready.

From temporary access roads on large scale construction jobs to moving gardening machinery across pristine lawns, the Premium Mats are a multi-purpose piece of kit. You can get to work on your project safe in the knowledge that your workers and vehicles above ground will be protected, as well as the ground below. Just find out how much ground you need to cover and then use the connection system to build a road or platform that's secure. LODAX Premium Mats will support you so you can get on with the job.

Material: High Density Polyethylene (HDPE)
(100% recycled)

Ambient temperature range: -45 to +45 °C

Panel sizes: 2000mm x 500mm x 10mm
(15kg, 45T load capacity, 2 handles)
2000mm x 1000mm x 10mm
(30kg, 45T load capacity, 4 handles)
3000mm x 1000mm x 10mm
(45kg, 45T load capacity, 4 handles)

Max axle weight: 15 tonnes*

Colour: Black

Max static load: 45-tonne load capacity on firm ground

Panel thickness: 10mm

Operating Parameters:

Panel weight: 15kg to 45kg (see sizes above)

- Suitable for machinery and pedestrian traffic
- Lightweight to handle
- Extra grip for tyres and pedestrians
- Anti-slip
- Does not take water, does not rust (VS wood/metal)
- Free brand name engraving (up to 10 characters)
- Can be deployed on muddy, uneven ground
- 10-year warranty (according to conditions)

Suitable surfaces: Turf, Soil, Sand, Gravel, Snow, Grass, Tundra.

*Ground dependant.
