

## PRODUCT SPECIFICATION

# SUPA-TRAC™ LITE

Supa-Trac™ Lite is the ultimate lightweight pedestrian flooring. It conforms to almost all ground types and conditions, and can be laid over whatever area or shape you need.

**With super quick installation and extraction - up to 70m<sup>2</sup> per man hour - it's the simplest, fastest ground cover solution of its type on the market. No clips, tools or expertise needed.**

Super tough, Supa-Trac™ Lite is suitable for temporary flooring for exhibitions, access routes and pathways. Edging ramps are available to eliminate trip hazards. Store it inside or out for years of flexible use; whenever, wherever. It comes in a range of colours and, as with all Rola-Trac™ products, meets anti-slip regulations.

With a panel weight of just 4.7kg per m<sup>2</sup> capable of supporting a static load of up to 54,000kg per m<sup>2</sup>, Supa-Trac™ Lite matches the toughest of jobs at an incredibly appealing price.

### Suitable applications include:

- Exhibitions
- Pedestrian Walkways
- Pitch Coverings
- Self Installation

### Benefits:

- Anti-slip, pedestrian-friendly surface
- Lightweight, portable and durable
- Hi-Vis ramps available
- Quick and easy to install

**Material:** Standard Grade PPCP

**Ambient Temperature range:** -49 to +49 °C

**Panel size:** 966mm x 275mm x 27mm

**Max Static:** Up to 54 tonnes per m<sup>2</sup>\*

**Resistant to UV damage:** No detrimental effect with regard to strength and structure for a minimum of 5 years, however over exposure could lead to slight fading of colour.

**Self draining:** Inert and non-conductive.

**Panel thickness:** 27mm

**Resistance to petrol and oil derivatives:** PP is impervious to the exposure of most substances and the only effect of such contact could be slight discolouration.

**Panel weight:** 0.99kg (4.71kg/m<sup>2</sup>)

**Resistance to corrosion:** We are not aware of any substance that would lead to the product corroding.

**Suitable Surfaces:** Turf, Soil, Sand, paving, concrete, gravel, snow, grass.

**Manually deployed:** The product is able to support slopes and inclines. Should it be felt the situation dictates, stakes can be used to secure the flooring.

**External storage:** Suitable for outside, uncovered storage - the only impact being the possibility of slight fading of colour.

\*Ground dependant. Please seek advise if vehicles are to be used
